Shut up and [G] drive, you don't know
what you're [Am] talking about She's not the [D] one,
you ought to [G] know that by now
You've got one of those hearts
that keeps changing your [C] mind
Your heart has a [G] way of making
you [D] stay so shut up and [G] drive [G]

Don't look in the [G] mirror,
she might have that [Am] look in her eyes
The one that's so [D] strong, it strangles your [G] will to survive
She's mastered the art, of looking sin [C] cere
Her eyes have a [G] way of making you [D] stay
Don't look in the [G] mirror [G]

[C] Iiiii'm the voice you never [G] listen to
And I [Am] had to break your [D] heart to make you [G] see
That [C] Sheeee's the one who will be [G] missing you
And you [Am] only miss the one
that you [D] wanted her to [G] be [G]

(Instrumental) Turn the radio [G] on
to drown out the [Am] sound of goodbye Blink back the [D] tears
show me you've [G] still got your pride
Just get yourself [G] lost in a sad country [C] song
Those guys that they [G] play know just what to [D] say
Turn the radio [G] on [G]
